Land Size: 14.2 Acres

Web Link: <http://www.belizepropertycenter.com/search-listings/view-488.html>

Description: A 14.2 acre parcel of land situated less than a mile from Belmopan, the capital city of Belize.

Access is from the Hummingbird Highway on the south side of Belmopan and the road is currently being upgraded.

The land is lush jungle and has two prominent hills which could provide ideal homesites for those wishing some privacy, plenty of space and the jungle all around them. The close proximity to Belmopan is convenient for all of the usual amenities. The city is in a current expansion mode and with the forthcoming move of the US Embassy from Belize City to Belmopan, will probably result in even more facilities, entertainment, etc. The University of Belize is also located in Belmopan.
